The Myth of "EQUALITY" and the MARCH of the MONKEY-MEN

We are not for a moment deluded into accepting at face-value the popular fiction that "the Lord created all men of one race and created them all equal." Some negro leaders themselves are aware—and have gone on record as saying so—that, although equality before the law can be conferred on all men through legislation, any further efforts to impose an unwanted integration on an unwilling American people, even at the point of a bayonet, is not only impossible but ridiculous.

Three thousand years ago, the ancestors of the white man were skin-clad savages, running through the snowy forests of northern Europe. Since that time, the white man has carved great cities out of the wilderness and has evolved the highest civilization ever known on the face of the earth.

Three thousand years ago, the ancestors of the black man were skin-clad savages running through the jungles of Africa. Since that time, the black man has evolved absolutely nothing on his own initiative. Any material or spiritual progress made by the negro at all has been made only by demanding half of what the white man has built and learned. Today, in Africa, the blacks are still skin-clad savages, cannibals, running through the jungle. Today, in America, the negro threatens to revert to savagery **en masse** unless the white race will surrender to him even more of what has been achieved through thirty centuries of unremitting toil and intelligent perseverance. Unfortunately for the monkey-men, though, even a surrender of half of all that we possess would still not make negroes our equals.

The Jewish leaders of the National Association for Advancement of Colored People are fond of saying that the negro in America suffers the status of a "second-class citizen" because he has been deprived of educational and cultural opportunities; that he is given sub-standard housing and is not given equal job opportunities in industry. It should be pointed out here that houses are built by **people**. If the negroes are indeed so all-fired equal, why can't they buy lumber and nails and build houses of a standard befitting the status of their fussy, ego-ridden race? As for educational and cultural opportunities—the only culture the white man has is that which he evolved himself. Educational materials we possess represent the sum and substance of all the white man has learned since the beginning of time.

If the negroes are so all-fired equal, why have they not evolved cultural and educational facilities of their own in three thousand years? Why do they have to demand half of ours?

The white man built industries in Europe and in America and thereby made his own job opportunities. The negro never built an industry anywhere in the world—not even in his own country, Africa—but he complains that he is being "discriminated against" when it comes to employment. Why shouldn't he be given secondary status in industry? What has he ever contributed to society or industry but stench, bad manners and an unwelcome presence?

It is obvious now and it has long been obvious to thinking Americans that the negro is definitely **not** the equal of any other race of man on earth. The myth of "equality" is a false one fostered by Communists (Jews) in their effort to plough under the white race so that they may take over the world.

The national head of the NAACP has never been a negro—always a Jew. The Jewish agitators—the Kennedy administration swarms with them—who advocate intermingling of the races, have no intention of becoming intermixed with negroes themselves. In their mad effort to destroy the United States and freedom throughout the world, the Jews have already announced their intention of forcing white, Christian gentiles to intermarry with negroes. This would effectively eradicate the only power that stands between Communist world government and its final triumph over the earth. The negro, who has never carried the banner of civilization, could hardly be expected to defend it against the red beast of international Communism.

If the white race were watered down through miscegenation into a mulatto mass, the Jew **Bolsheviki** would have only negroes to deal with in their enslavement of all mankind on earth. This is the real, ultimate aim of the racial agitators who are urging our "equals" the semi-savage monkey-men of Africa, to march on city centers throughout the nation in their effort to compel the white man to surrender all that he has left—the sanctity of his home; the integrity of his family—to the unwanted presence, the rapacious black.

It should be pointed out here, too, that all the drivel about "minorities being persecuted" has little, if any, basis in fact. The colored

races, including Chinese, Japanese, negroes and Hindus, etc., already occupy nine-tenths of the habitable surface of the earth. The white race has been crowded into a small corner of western Europe and a large fraction of the north American continent. There is a continual pressure against us by the colored races to push us off our last little portions of the earth. If any race is a minority in this world, it is the white race.

Perhaps this need not have happened if, in the past, our ancestors had not been so unwise as to allow control of national and international affairs to fall into the bloody hands of the Jews. It was they, the Jews, who through their control of the press, engineered our modern wars. Time after time, Christian Germany and Christian France and Christian America have been prodded into declarations of war—for the further decimation and ultimate destruction of the white race, with the white man's own weapons—while international Jewry and all Asia sat back and laughed.

Now, the white race, the builders of civilization (and, too often, destroyers of ourselves) have come to the final impasse. Today, we must defend the gates of our last stronghold. The white man's weapons are still mighty enough to enable us to smash Communism and wipe the **Bolsheviki** off the face of the earth. When we have done that, we can put the negro back in his place, or deport the miserable creature to central Africa, if need be—he's not happy here.

But we need intelligent, honorable, trustworthy leadership. We cannot expect that sort of leadership from the Jews, mopheads and traitors in Washington. We must organize ourselves into a powerful, coherent third political party so as to sweep the crooks and Kikes out of office in our federal government.

The American people have been allowed to forget, thanks to the controlled press, that the Congress of the United States was elected to represent the interests of **all** the American people—and not to serve as a rubber-stamp for the mophead administration. We can take steps at the next election to vote the traitors out. The time to organize is **now**! Join us today!
